

What is the technical skill level of the translators?

Able to type well?

Able to write with pen or pencil?

Oral MAST with BTT Recorder / Orature or Sign Language DOT

If you *must* use Microsoft Word or LibreOffice, there are a few steps you can do to make it easier to save your work later.
• Use the basic USFM markers: \c before each chapter (\c 1 for chapter one, \c 2 for chapter two, etc.)
• Use verse markers before each verse. (\v 1 for verse one, \v 2 for verse two, etc.)
• Press enter or return at the end of each verse. (Start each verse on a new line.)

Do you have computers with: Windows 10, 4 GB RAM, 500 GB HD, USB, WiFi

Install Linux Mint on lower-end computers

Write on paper, then type in Autographa Lite

Upload output to Sharefile or follow instructions of DOT team

Use BTT Writer to translate and upload

Collection of data from translators can be done by USB flash or by WiFi local network.

Use BTT Writer to upload

Data is safe
Data can be used for checking
Data can be used for source
Data can be published

If your local IT staff is very talented, and if you have good network infrastructure, you can also use vMAST for translation and checking. At this time you can anticipate unusual tech support situations. Good communication with Tech Advance is encouraged.
